

**Re-Enrollment 2018-2019 School Year**

We're pleased to announce that this year we are rolling out a new online system called SchoolMint. SchoolMint makes parent-school communication easier than ever. Starting this year, re-enrollment paperwork will be done online. You can use your smartphone or tablet with the SchoolMint mobile app or computer to complete all the necessary forms.

Additional instruction and independent access codes will be sent home with each student on April 18, 2018. Please contact your student's school if you did not receive this information. We look forward to your swift submission of re-enrollment paperwork, which is due May 1, 2018. Thank you!
